

GamingMalta Foundation launches COVID-19 Vaccine initiative for the local gaming industry

The GamingMalta Foundation, supported by the Malta Gaming Authority, has embarked on a COVID-19 Vaccine initiative for the local gaming industry.

In line with existing initiatives by local Health Authorities towards reaching herd immunity, GamingMalta is currently assisting the local gaming industry towards COVID-19 vaccination of its respective personnel by coordinating a bespoke service for the sector.

Speaking on this initiative, Ivan Filletti, COO of GamingMalta stated that: “Throughout the COVID-19 pandemic, GamingMalta has acted as a point of reference and assistance for the local gaming industry. This COVID-19 vaccination initiative is another step towards a mutual effort to safeguard the health of the industry's talent, a task that remains at the forefront of our efforts. Let us get through the final hurdle together, as one.”

This initiative has been welcomed by both industry operators and personnel alike. It follows several other initiatives set out by GamingMalta including, a dedicated helpline for immediate assistance and other matters.
